

Apex Enterprise

Your Place For Road Construction Spares

We are an independent DISTRIBUTOR & MANUFACTURER with no affiliation nor contractual obligation to equipment manufacturers. This allows us the flexibility to supply parts to our customers on two different levels:

O.E.M.

The same exact part the equipment manufacturer supplies but not in a genuine OEM box. We purchase the parts from the same companies that they bought from and then pass on a saving substantial to our customer.

REPLACEMENT

These parts are manufactured by other companies to complete with the equipment manufacturers parts business. These part are generally known as after market spares. We and the companies from which we purchase these part guarantee that the parts meet or exceed O.E.M. specifications.

About us.....

APEX ENTERPRISE is a well-known company that specializes in the production and distribution of Genuine parts for road construction equipments. We are using the most modern technology. The wear parts are kept in computer-controlled high rack storage areas for immediate shipment by courier, truck, ship or plane. We carry more than 15,000 different spares and wear parts on road paving equipments.

MARKET

APEX ENTERPRISE has a close association with more than 500 construction firms, right from organized sectors like NHAI, MORTH, PWD, Airport Project, Foreign Joint venturers and state highway department.

QUALITY

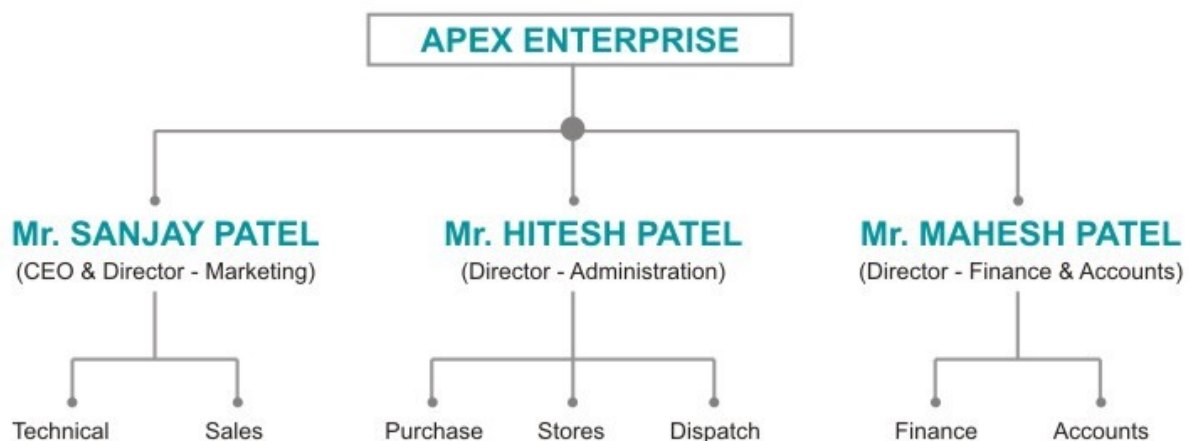

Our motto is "Committed to **TIME** and **QUALITY**". We are determined to provide our client with premium quality products and so, we are well prepared to explore new market demands with all the zeal and passion involving our skill and experience of many years, combined with today's modern techniques. We dedicate ourselves to serve the customer to his satisfaction.

VISION

"We are in the process of opening up more than ten branch office in all the metropolitan cities of India"

APEX ENTERPRISE has become a trustworthy road equipment & machinery spare parts supplier against the strong competition from other precursors in this field.
